Re: Toronto Smoke-free Bylaws Survey

The Medical Officers of Health of the Greater Toronto Area (GTA) today released the findings of an Angus Reid poll claiming 65% of residents of the GTA support municipal bylaws calling for a 100% ban of smoking in public places.

The enclosed package includes the press release, executive summary, survey questions and report itself.

You will also find a memo from our contact in Toronto summarizing the proceedings at the press conference. Once we learned of the release this morning, Ms Walsh was able to get representatives of the Ontario Restaurant Association to attend and make known their views.

A transcript is also appended for your reading pleasure.
