**NON-SMOKERS' EXPOSURE TO SECOND HAND SMOKE  
PERCENTAGE OF POPULATION REPORTING EXPOSURE  
NEW BRUNSWICK, 2003- 2009**

The data on this fact sheet were derived from the Canadian Community Health Surveys (Cycle 2.1, 2.2 and 2007, 2008 and 2009) as provided by Statistics Canada.

Further information on survey methodology can be found at: <http://www.statcan.gc.ca/dli-ild/data-donnees/ftp/cchs-escs-eng.htm>

**The questions used on the CCHS survey included:**

- “At the present time, do you smoke cigarettes daily, occasionally or not at all?” This question was asked of all respondents.
- “Including both household members and regular visitors, does anyone smoke inside your home every day or almost every day?” This question was asked of non-smokers.
- (In the past month,) were you exposed to second-hand smoke, every day or almost every day, in public places (such as bars, restaurants, shopping malls, arenas, bingo halls, bowling alleys)? This question was asked of non-smokers.
- In the past month, were you exposed to second-hand smoke, every day or almost every day, in a car or other private vehicle? This question was asked of non-smokers.
